

Ingold Aviation Supports Social Projects in Kaluga, Russia

Every year around this time we are deciding on what presents we are going to send to our valued customers for Christmas.

This year, instead of spending money on Christmas presents, we have decided to support social projects in Kaluga with this money through the help of “Verein Kaluga-Thun”, a society dedicated to cultural exchange between Russia and Switzerland and supporting local projects for children and less fortunate people in need of assistance.

“We are proud to be supporting such a good cause and trust that it will have a positive impact” says Ralph Ingold, Managing Director of Ingold Aviation LLC.

Kaluga is a city south of Moscow, Russia with a long history and known for its research facilities and automotive industry.
